Iulian Daniel Oancea

Lead Programmer at Internet Advertising

Rezumat

I've started learning HTML and CSS at 9 years old out of curiosity of "How can I make my own Google?" and "How Google works?".

At the age of 10 I've started to learn PHP and working with SQL Queries.

My main purpose for learning Java was to create Android Apps and small Apps for Desktop Enviroments.

NodeJS is a necessity for my day to day life, big fan of MongoDB, RethinkDB and JS

Experiență

Internet Advertising srl

Lead Programmer

august 2018 - Present

Websolute Apps srl

Lead Programmer

august 2018 - Present

Calea Dudesti
