

To configure the “eduroam” connection profile of UB on devices with operating systems that have a version equal to or greater than **Windows 8**, you can use one of the two existing solutions:

- install the “Eduroam CAT” or “Geteduroam” application.

Both cases are described in this tutorial.

[Eduroam CAT](https://cat.eduroam.org/)

*You can jump directly to step 3 (pag. 2) by accessing :

<https://cat.eduroam.org/?idp=7510&profile=8959>.

1. Access cat.eduroam.org from browser and click on “Click here to download your eduroam® installer”

https://cat.eduroam.org

This is an executable file whose name has the form as “eduroam-W^{nr}-eduroamUB.exe”.

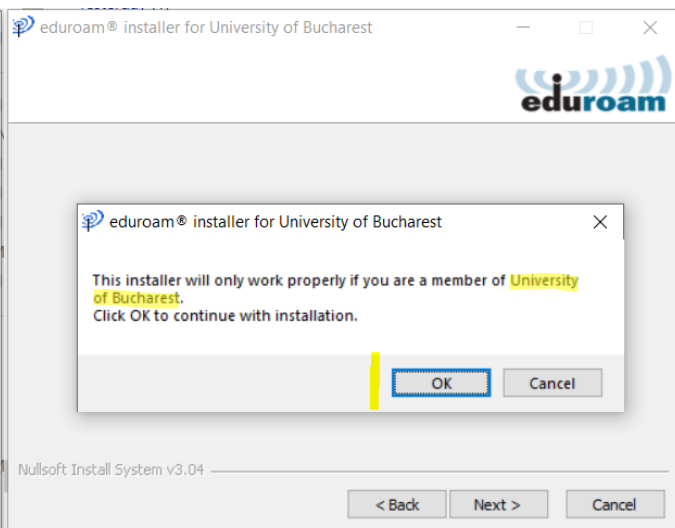

Name	Date modified	Type	Size
✓ Today (3)			
 eduroam-W ¹⁰ -eduroamUB.exe	4/15/2022 2:09 PM	Application	160 KB
 eduroam-W ⁸ -eduroamUB.exe	4/21/2022 9:26 AM	Application	159 KB

The downloaded kit will be installed with the acceptance of all displayed alerts (see steps 1-4).

1

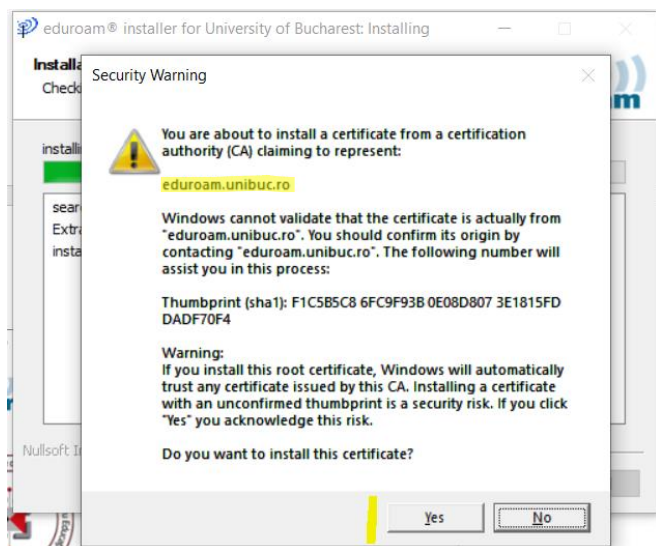

2

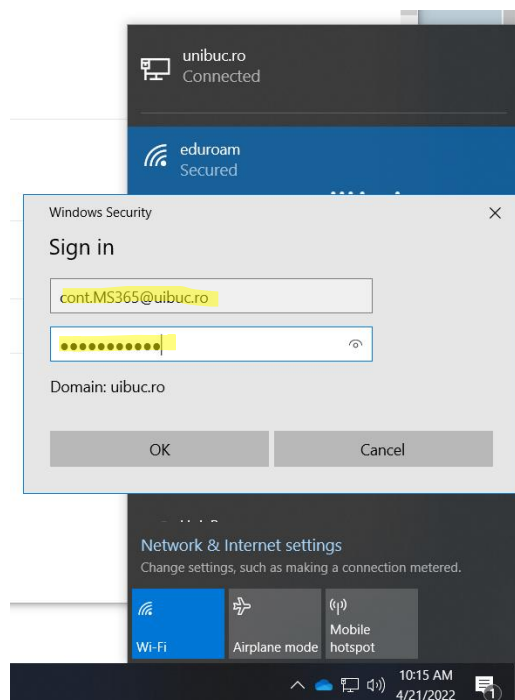

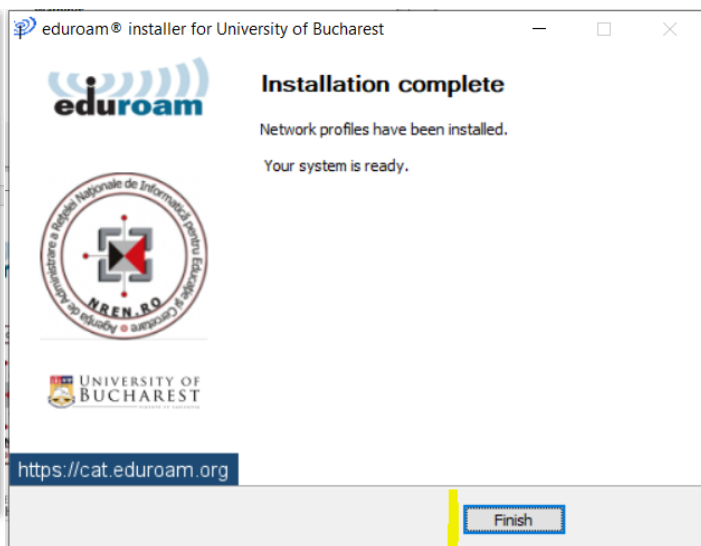

Accept the installation of the certificate "eduroam.unibuc.ro" (the message appears only at the first installation).

3

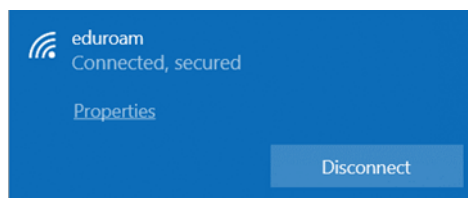

4

When you try to connect, a window for completing the credentials of your UB's MS365 account it will appear.

If everything is OK, the connection status will display as follows:

[Geteduroam](#)

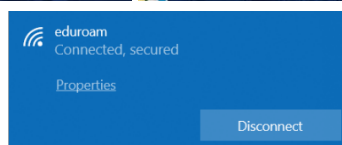

For devices with **Windows** operating system, you can also use the "[geteduroam](#)" application from:

After downloading the executable, you need to install it:

geteduroam.exe	5/5/2022 11:04 AM	Application	1,018 KB
----------------	-------------------	-------------	----------

Profile configuration will be done directly from the application interface. Search and select "University of Bucharest" and then fill your **MS365** account details and then press the "**Connect**" button.

If everything is OK, the connection status will display as follows:

After installation, the SSID "eduroam" will be found in the Wi-Fi list for which you can initiate "Connect"(*).

Now, the profile is set with the necessary parameters to be able to log in.

**Wi-Fi profile "eduroam" is shown only if there is a radio broadcast of this network in your area.*

To identify where there are areas with SSID broadcast "eduroam", you can access the following links:

[\(Global\)](#)

[\(Romania\)](#)

**Disconnect the network cable or turn off the mobile data connections (if applicable).*

**If you are reinstalling the kit this will modify the existing "eduroam" profile.*
