Princeton School on Science and Global Security

The Program on Science and Global Security (SGS), part of the School of Public and International Affairs at Princeton University, is looking for next-generation scientists and engineers from around the world interested in learning about technical perspectives on understanding, reducing, and ending the threat from nuclear weapons.

Applications are now open for the Princeton School on Science and Global Security, which is a follow-on to the Summer Symposia on Science and World Affairs. The School will be held at Princeton University, October 10–16, 2024.

Graduate students or post-doctoral researchers in natural or applied sciences, engineering, or mathematics, of every gender, race, ethnicity, religion, sexual orientation, and socioeconomic status are encouraged to apply.

For a report on the 2023 Princeton School on Science and Global Security, see sgs.princeton.edu/news-announcements/news-2023-12-16.

Application materials for the 2024 School are due by June 17, 2024, by email to sgs-school@princeton.edu. For more information on the application process, see sgs.princeton.edu/school2024.
